

100 BEST FLEETS

Oak Ridge National Laboratory, Tennessee Clean Cities, National Association of Fleet Administrators & The 100 Best Fleets in The Americas™

Present:

Solutions to the Biggest Fleet Challenges in 2019; Best Practices from *The 100 Best Fleets*

At the world's largest supercomputer designed to help find solutions to the biggest challenges in society – including fleet – in 2019; with best practices from *The 100 Best Fleets*...

Join us for interactive, round-table discussions with the best fleet minds in the industry including the #1 winner of *The 100 Best Fleets* in 2018 who has **real-world solutions for the technician shortage**,

Our venue is a **historic American icon from WWII** which is now a state-of-the-art facility. Oak Ridge is synonymous with cutting-edge technologies. We will also hear from officials at the “Lab.”

They will help us with practical breakthroughs in fleet management. The emphasis will be on upgrading our technology understanding with a crystal ball look into advanced fleet software, and mobility solutions that **saved one fleet \$1.5 million dollars annually**. Emerging fleet technologies will be featured in a mini-expo format with experts available to demonstrate their high-performance capabilities.

There are only two ways to do more with less; technology is one way. We will spend time on **funding, “change management and how to manage big data”** and any other topics you wish to discuss with these outstanding fleet managers. We only learn from the best.

This is a one-time-only meeting with need-to-know information you can get nowhere else.

June 20, 2019; Thursday: 9:00 a.m. - 2:30 p.m.
Oak Ridge National Laboratory's
National Transportation Research Center
2360 Cherahala Boulevard
Knoxville, TN 37932
